3 The financial objections raised in 1905 by Mr Basu are true for all times The Chairman's contention that the Board has now a lease hold of life for 5 years more and that this has materially altered the conditions that existed in the year 1905 does not seem to hold good. What all can be done to these temporary employees has been embodied in the G O No 11343-/MH-27-04-5 dt. 10-6-1905. Any departure from this order is open to financial objections

FROM

T. G. Lakshmana Rao, B.A., L.C.E.,
Chairman of the Board of Trustees,
Mysore City Improvements

To

K. R. Sreenivasiengar, Esq., M.A.,

Secretary to the Govt of H H the Maharaja
of Mysore, Gen and Rev Departments

SIR,

I have the honour to submit herewith for orders of Government an extract of Resolution No.XI from the Proceedings of the Board of Trustees in their Meeting dated the 30th. June 1913, together with a copy of the note therein referred to regarding the services of the schedule staff of officials of the Trust Board.

2. This staff under the scale sanctioned by Government is made up of 46 hands including the menial establishment. Eight of these officials are men who were in Government Service before they joined the service of the Board, and 38 are those that began their service under the Trust Board only.

3. In the case of the former class of officials, no rules or orders have been made by Government under section 36 of the City of Mysore Improvement Regulation The provisions

ir

in the Mysore Service Regulations do not seem to be explicit on the point whether the enhanced pay drawn by these -- officials under the Board counts for their pension.

4. Except in the case of the marginally noted 3 -- officials lent by and seconded in the General Public Works Department and the Mysore City Municipality respectively, the other officials who had held appointments in Government Service before they joined the service of the Board have now no lien on their previous appointments, the same having been either abolished or permanently filled up otherwise. Considering that these officials have already put in an efficient service for a period of nearly 10 years and that they might be required to continue in their present appointments for not less than at least 5 years more, it seems but fair and reasonable that the pay which these officials have been or will be drawing while in service of the Trust Board should be treated for purposes of their pension as pay drawn by them in permanent Departments of Government. A list marked "A" shewing the names of officials whose services have been transferred to the Trust Board from Government Departments, the pay each of them, was drawing before joining the Board's service, the enhanced

pay

M.B.C.Narasimhaiengar, M.A.Kuppu Rao, M.G. Subba Rao — From P.W.D.

M.B.C.Narasimhaiengar, M.A.Kuppu Rao, M.G. Subba Rao from McC.M.

pay they have been drawing under the Board and the date from which such enhanced pay was allowed to them is enclosed.

5. Regarding the officials who started service only under the Board, a second list marked "B" is appended hereto showing their names, designation, pay and length of service. It will be seen therefrom that 16 officials of both the out-door and office establishment and 8 menials have put in already a service of more than 5 years, such service in a few cases extending even over 10 years. With reference to the proposals then submitted for treating these officials Departments, Govt -lse as the permanent officials of Government ordered in their Proceedings No.11343/M1.277-04-5 dated the 10th June 1905, that it would do to show them such privileges and concessions as are granted by the Mysore Service Regulations to the officials on temporary scale in Government Departments In this connection, it is submitted that the conditions that existed at the time when the above proposals were made in March 1905 have been considerably altered since the Board's work was then expected to be over within about 10 years from the date of its formation that is by the end of the year 1912-13. Under the recently approved comprehensive programme the improvement works of the Mysore City are to last for 6 years more at least. Under these circumstances

the

the case of these poor hard-worked officials will have to be graciously taken into the favourable consideration of Government and orders kindly issued for giving them the status of permanent Government officials, so that, after the dissolution of the Board, they may, with their experience be taken into the General Public Works Department or other Public Departments and suitably provided for without any break in their service or loss in their pay.

6. Bye-laws under section 39 (c) of the City of Mysore Improvement Regulation regarding this class of officials will not, it is submitted, for reasons explained in the accompanying note confer any material benefit on them. It is needless to point out that, as they are, these officials are very dis-advantageously situated not even having the benefit of Government Order No.Fl.2676-9/B 25-11-2 dated the 14th. November 1912 permitting the temporary employees of the Public Works Department to insure their lives under the State Life Insurance Scheme. The amilioration of the condition of these neglected subordinates at an early date is therefore highly desirable.

I have the honour to be,

Sir,

Your most obedient servant,

C H A I R M A N.

Lysore City Improvement Trust Board.

Note on certain points regarding the Service &c of the staff of officials of the Trust Board, Lysore.

=====OOO=====

The present establishment of the scheduled staff of the Board is of a heterogenous character comprising three classes of officers (a) those already in Government service that were lent to the Board under a competent authority (b) those already in Government Service that applied and got themselves transfered to the Board and (c) those that started in the Board service only. Officers of the first two classes had held - Government appointments of invariably lower pay, and except in one or two cases the appointments these had previously held have either been abolished or - permanently filled up otherwise, and at present they have apparently no lien on them. The Government has neither made as yet any rules for the guidance of -

those officers under section 36 of the Improvement Regulation, nor have they passed special orders on this behalf, and as such, they are subject to only the provisions contained in the Mysore Service Regulations, which so far as has been consulted seem to reckon only the length of service under the Board to count for pension, and not the enhanced pay drawn under it. This state of anxious, doubt and uncertainty requires to be rendered clear, in the interest of the persons concerned. A formal communication to Government on this subject is therefore necessary.

2. The case of the officials of the third class i.e., those who had no -- previous appointment under Government but began their service only under the Board, and whose number both in Executive and Indoor staff form the majority, is harder still.

3. After the Bombay Improvement Trust Act No IV of 1898, Section 39 of the

City of Mysore Improvement Regulation also empowers the Board to make - Bye-Laws for regulating the grant of leave, leave allowances, pensions and gratuities and such other matters in respect of this class of officials. It has, however, to be pointed out that the two bodies of Trust, those of Bombay and Mysore differ in two fundamental respects Viz - that while the former stands on its own legs in point of funds by raising loans on its own debenture bonds, the latter entirely depends for it on the State Grant almost like any other Department of Government, and that while again the Regulation for the working of the small Trust of the Mysore City was being drafted, the Government had - apparently in view that the labours of the Trust for the improvement of this City need go no further than the carrying out into effect the recommendations made on comprehensive lines

10

by the Improvement Committee of 1902, in addition to a few supplemental schemes, if any, were necessary, so that the execution of all the contemplated Improvements for the Mysore City was held to be a work of not more than 10 or 12 years, unlike in the case of the Bombay Trust, the duration of the execution of whose Improvements Schemes runs over decades. As matters stand at present, the Board seems to have a fresh lease of life, say for another 5 or 10 years at the utmost Even this total period of the Board's existance viewing it prospectively, falls short of the official age of a Government servant which is 30 years under the Service Regulations by ten to twelve years. Consequently bye-laws under the said section 39 of Improvement Regulation affecting the pensions and gratuities of the Board's servants will confer no material benefit on them, as compared with the privileges offered

to officials of other Government Depart
ments.

4. Though the Board's servants with equally good tests and qualifications are to work side by side with the --- permanent Government servants, receivin their pay from the State Funds only, are to deal with, account for, see to the right and economical use of the State money, bears the same amount of responsibility for due discharges of their duties, and undergo the same penalty for any unlawful official act of omission or commission on their part yet it is a pity that they are not made to entertain the belief that they have the same privileges and prospects of their brother officials. This state of disparity does really need a very early remedy.

5. The fear that is naturally -- lurking in them of being sent home any time, should the Board is either wound up or its establishment reduced, - induces them to be seeking, appointment

13

matters for the Board's officers and servants being placed on a par with permanent Government servants and granting them the same privileges as are conferred on the latter The Government did not then view the - proposal with favor.

7. In their Proceedings No.11343/ M1. (277-04)-5 dated the 10th. June 1905 they ordered that it would do to show them such privileges and concessions as are granted by the Service Regulations to the officials on temporary scale in Government Departments. Probably the proposals submitted - originally in the matter were rather premature. Under the then conditions the Board's work was expected to be over within 8 or 10 years Things are, however, now considerably altered Under the recently approved comprehensive Programme, the Improvement works are to last for more 8 years at least. Some of the Board's offici..
